HOLTEC
SOLUTIONS

Denmark Distributor

draft beer towers manufacturer

EBTS.

ABOUT US

We are proud of our 29 years of experience in the production of dispensing systems. We make sure that every bar gets a suitable dispenser.

Products are made only from best quality stainless steel, copper and brass. With developing new methods and processes in production the dispensers are easy to install, use and maintain.

Appearance represents your brand. We love to play with design. Adding wood and acrylic for modern and attractive look. Using latest techniques of engraving, laser printing, wrapping and water transfer to make the look different and your brand visible.

welcome to our world of
dispensing towers

Illuminated Branding

The choice of branding is large and offers endless presentation possibilities

Front Light

- flat & fish eye shape
- different dimensions: 65, 80, 82mm
- illuminated & non-illuminated
- optional- integrated

Lollipop Light

- flat & fish eye shape
- one & double sided
- different dimensions: 65, 80, 82mm
- illuminated & non-illuminated

Laser Cut Light

Text, logo or panel can be cut out.

We play with different colours and foil designs to give the illuminated surface a good look

Digital Light

Connect with your customers in matters of seconds with dynamic content. Wifi upload to all the bars no matter of where they are.

Non-Illuminated Branding

Engraved Branding

Laser engraving is a branding method where the logo is burned into the material. The result is very precise. The colour of the produced logo depends on the substrate and the lower layers of the workpiece.

Laser Printed Branding

A decorative technique that allows you to apply detailed patterns and artwork onto all models. It makes the look of the same model completely different.

Wrapped Branding

A decorative technique that allows you to apply detailed patterns and artwork onto all models. It makes the look of the same model completely different.

Tap Handles

Good presentation option. Suits all taps models as it has a universal thread. They are available in various materials- wood, plastic, metal. Colours, shapes and sizes to select.

Thank you

FOR CHOOSING .

Cheers!
